1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Chittagonian
   b) Autonym (self-name) for this language:
   c) Alternate names and spellings of language, and any established abbreviations:
   d) Reason for preferred name:
   e) Name of ethnic group or description of people who use this language and approximate population of users, if in use today:
   f) Preferred three letter identifier, if available:

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. Language identifiers are not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
