1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Jumla Sign Language
   
   b) Autonym (self-name) for this language:
      
   c) Alternate names and spellings of language, and any established abbreviations:
      
   d) Reason for preferred name:
      This is the signed language used by the Deaf in and around the small town of Jumla.
      
   e) Name of ethnic group or description of people who use this language and approximate population of users, if in use today:
      Jumli
      
   f) Preferred three letter identifier, if available: JUS

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. Language identifiers are not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION
   a) Is this a
      ☑️ Living language
      ☐ Nearly extinct/secondary use only (includes languages in revival)
      ☐ Recently extinct language

d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION
   a) This language is: ☒ Signed   ☐ Spoken   ☐ Attested only in writings
   b) Language family, if classified; origin, if artificially constructed:
      Sign Language
   c) Closest language linguistically. For signed language, note influence from other signed or spoken languages:
      Nil

4. LANGUAGE DEVELOPMENT AND USE
   a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.?:
      Nil
   b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:
      No
   c) Comment on factors of ethnolinguistic identity and informal domains of use:
      The Deaf and many hearing people use the language for informal interaction with each other.

SOURCES OF INFORMATION
   You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”
   a) First-hand knowledge. Describe:
      We flew into Jumla which is only accessible so far by walking or by plane. The teacher of the Deaf children has had a class there for one year. These children do not know the local sign language of Jumla as they came from distant villages, and had no language before coming to school. The hearing teacher knows the local sign language of Jumla, but went
to the capital, Kathmandu, to learn Nepali Sign Language in order to teach the Deaf children. None of the Deaf residents of Jumla and its environs had ever been to school, and all were monolingual in their own sign language. We met quite a few hearing people who know the Jumla Sign Language.

b) Knowledge through personal communication. Describe:

c) Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):
