1. NAMES and IDENTIFICATION

Please fill in the following.

a) Preferred name of language for code element denotation: Kathu

b) Autonym (self-name) for this language: Kathu

c) Common alternate names and spellings of language, and any established abbreviations: Gasu

d) Reason for preferred name: Autonym

e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use): Kathu: 5,000

f) Preferred three letter identifier, if available: [ykt]

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
Artificially constructed language
Macrolanguage
