1. NAMES and IDENTIFICATION

a) Preferred name of language for code element denotation:
   Aeka

b) Autonym (self-name) for this language:
   Aeka

c) Common alternate names and spellings of language, and any established abbreviations:

d) Reason for preferred name:

e) Name and approximate population of ethnic group or community who use this language:
   3348 Aeka people according to the 2000 National Census. In one additional village, Siai, which has a population of 244, there are both Aeka and Binandere speakers. An estimated quarted of the population of Siai speak Aeka, giving around 3400 Aeka speakers.

f) Preferred three letter identifier, if available: akk

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
