Comments received for
ISO 639-3 Change Request
2007-235

Outcome: Approved with amendment
Effective date: 14 January 2008
amended 14 February 2008
Registration Authority decision on Change Request no. 2007-235: Adopt proposed change with amendment

The Proposed change 2007-235 involved the merging of Tanjong [tnj] into the code element Kanowit [kxn], for which a name change was also requested to Kanowit-Tanjung Melanau. The original submitter subsequently contacted the Registrar to state that a typographical error had been made on the original request involving the new name to be associated with [kxn]. The name should have been Kanowit-Tanjong Melanau, retaining the ‘o’ in the spelling from Tanjong [tnj]. It is this latter spelling, Kanowit-Tanjong Melanau, that is adopted in the ISO 639-3, retroactively from 14 February 2008.
