ISO 639-3 Registration Authority Request for New Language Code Element in ISO 639-3

Date: 2008-8-30

Name of Primary Requester: Mark Weathers E-mail address: mark_weathers@sil.org

Names, affiliations and email addresses of additional supporters of this request:

Larry Williams, Director of Field Programs, SIL MXB; field_programs_mexico@sil.org,

Associated Change request number: 2008-092 (completed by Registration Authority)

Tentative assignment of new identifier: txw (completed by Registration Authority)

Do not be concerned about your responses causing the form text spacing or pagination to change. Use Shift-Enter to insert a new line in a form field (where allowed)

1. NAMES and IDENTIFICATION

- a) Preferred name of language for code element denotation: Me'phaa, Teocuitlapa
- Autonym (self-name) for this language:
 Me'phaa Xma'íin (in that order- first word is different in each language except 2); (single prime is l.c. "saltillo", grave accents=macron-under vowels)
- Alternate names and spellings of language, and any established abbreviations:
 tlapaneco de Teocuitlapa, tlapaneco de Zoquitlán, tlapaneco del noroeste bajo, tlapaneco de Nanzintla, tlapaneco del oeste, Nanzintla Tlapanec
- d) Reason for preferred name:
 - "Me'phaa" identifies the language family according to the policies of the Me'phaa Language Development Committee (Comité de Desarrollo Lingüístico de la Lengua Me'phaa) in opposition to the pejorative "Tlapaneco" used by the colonists. Teocuitlapa is the Spanish name of the the main town, and the ancestral community considered the center of the language in the native taxonomy of ethnic regions. (Teocuitlapa is a "comisaría", a subordinate town in the Municipio of Atlixtac. The majority of towns in the Atlixtac municipality speak Nawatl.)
- e) Name of ethnic group or description of people who use this language and approximate population of users, if in use today:
 9.000
- f) Preferred three letter identifier, if available: txw

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. Language identifiers are not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION a) Is this a Living language Nearly extinct/secondary use only (includes languages in revival) Recently extinct language Historical language Ancient language Artificially constructed language (Select one. See explanations of these types at http://www.sil.org/iso639%2D3/types.asp) b) Countries where used: Mexico c) Region within each country: towns, districts, states or provinces where used: Located in the "Región de la Montaña" of the State of Guerrero: larger towns in the Municipio of Atlixtac: Teocuitlapa, Zoquitlán, Caxitepec(not to be confused with Caxitepec of the Acatepec municipio); the reportedly separate dialect of this language is spoken in a few town of the Municipio of Quechultenango: Nanzintla, Narajuelo, El Tejoruco, among others. d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user's death 3. MODALITY AND LINGUISTIC AFFILIATION a) This language is: Signed Spoken Spoken Attested only in writings b) Language family, if classified; origin, if artificially constructed: Otomanguean c) Closest language linguistically. For signed language, note influence from other signed or spoken languages: Me'phaa Acatepec [txp?] but depending on the linguistic features in focus, there are similarities with other Me'phaa languages as well. 4. LANGUAGE DEVELOPMENT AND USE a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.?: No written literature until an SIL "language cluster" translation project included this variety in 2006. Only beginning drafts of literacy materials and informal recordings are available to date.

b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?: INALI, the national indigenous language institute http://www.inali.gob.mx/catalogo2007/html/l tlapaneco.html, recognizes this as one of 9 varieties of the language family. The federal bilingual education program uses the books printed in the Malinaltepec language, expecting teachers to adapt the texts to the speech of their students. Many teachers are from the Malinaltepec and Acatepec language areas. The Mexican laws adopted in 2003 creating the National Institute of Indigenous Languages (INALI), require that all children be taught in their native language, by teachers who speak their native language, as defined by the Catalog of Indigenous Languages. That catalog was published in early 2008, but it will be a slow process for the educational system to produce materials in each of the languages now recognized (including 9 varieties of the Me'phaa language family -we recomend only 8), and for them to hire and train teachers who are true speakers of each variety. c) Comment on factors of ethnolinguistic identity and informal domains of use: Used almost exclusively in homes, local government, stores, on the street, etc.

5. SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, "Request for Change to ISO 639-3 Language Code"

- a) First-hand knowledge. Describe:
 I have visited Teocuitlapa and Zoquitlán several times, since 2005, and am advising a speaker of this language in analysis of his language and in scripture translation.
- b) Knowledge through personal communication. Describe:

 Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):
 None exist, to my knowledge.

Please return this form to:

ISO 639-3 Registrar SIL International, Office of Language Information Systems 7500 West Camp Wisdom Road Dallas, Texas 75236 USA

ISO 639-3/RA web site: http://www.sil.org/iso639%2D3/default.asp

Email: iso639-3@sil.org

An email attachement of this completed form is preferred.

Further information:

If your request for a new language code element is supported by the Registration Authority as a formal proposal, you may be contacted separately by researchers working with the Ethnologue or with LinguistList asking you to provide additional information.
