Southern Betsimisaraka Malagasy
- b) Autonym (self-name) for this language:
Betsimisaraka Malagasy

The population of the Betsimisaraka is about 1,830,000
- f) Preferred three letter identifier, if available:

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifier is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
