ISO 639-3 Registration Authority
Request for New Language Code Element in ISO 639-3

This form is to be used in conjunction with a “Request for Change to ISO 639-3 Language Code” form

Date: 2011-7-25

Name of Primary Requester: Anthony Aristar, head of the MultiTree Project

E-mail address: multitree at linguistlist dot org

Names, affiliations and email addresses of additional supporters of this request:
Claire Bowern (claire dot bowern at yale dot edu)

Associated Change request number : 2011-091  (completed by Registration Authority)

Tentative assignment of new identifier : wro  (completed by Registration Authority)

PLEASE NOTE: This completed form will become part of the public record of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Worrorra

   b) Autonym (self-name) for this language:
   
   c) Common alternate names and spellings of language, and any established abbreviations:
      Worora, Wororra, Wurara, Worora, Worrora, Worara (pronunciation of Ngarinjin speakers),
      Maialnga (supposed name of a northern horde but Lucich [1966 MS] could not confirm it
      with Worora informants), Yangibaia, Wo'ora, Worrara, Wurora

   d) Reason for preferred name:
      AIATSIS, Dr. Bowern, McGregor 1988, and McGregor and Rumsey 2009 list the language
      name as such.

   e) Name and approximate population of ethnic group or community who use this language (complete
      individual language currently in use):
      In 1988, McGregor stated that Wororra was spoken "mainly in Monwanjum Community,
      Derby," but was unable to give a number of speakers (84). In 2009, McGregor and Rumsey
      indicate that Wororra is moribund (2). UNESCO estimates that there are 4 speakers
      remaining (2010). In 2006 census by the Australian Bureau of Statistics placed the number
      of speakers at 22. The true number of Worrorran speakers is therefore unclear.

   f) Preferred three letter identifier, if available: wro

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
2. TEMPORAL DESCRIPTION and LOCATION

a) Is this a

☐ Living language
☒ Nearly extinct/secondary use only (includes languages in revival)
☐ Recently extinct language
☐ Historical language
☐ Ancient language
☐ Artificially constructed language
☐ Macrolanguage

(Select one. See explanations of these types at http://www.sil.org/iso639-3/types.asp)

For individual languages, also complete:

b) Countries where used:

Australia

c) Region within each country: towns, districts, states or provinces where used. Include GPS coordinates of the approximate center of the language, if possible:

At Secure Bay and Walcott Inlet; Collier Bay to Prince Regent River; northern boundary passes up Rothsay Water, inland 25 to 30 miles (40 to 50 km.) along Princess May Ranges to Mount Hann and Mount French and cliff base of the tablelands (Tindale 1974).

d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION

a) This language is:

☐ Signed
☒ Spoken
☐ Attested only in writings

b) Language family, if classified; origin, if artificially constructed:

Worrorran, Western Worrorran (Worroric)

c) Closest language linguistically. For a Macrolanguage, list the individual languages (adopted and/or proposed) to be included in its group. For signed language, note influence from other signed or spoken languages:

The other Western Worroric languages.

4. LANGUAGE DEVELOPMENT AND USE

a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.?:

No
b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:
Unknown

c) Comment on factors of ethnolinguistic identity and informal domains of use:
Unknown
SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”

a) First-hand knowledge. Describe:

b) Knowledge through personal communication. Describe:

c) Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):

2011. Worrorran language page. AUSTLANG.  
http://www.unesco.org/culture/languages-atlas/

Please return this form to:
ISO 639-3 Registrar  
SIL International, Office of Language Information Systems  
7500 West Camp Wisdom Road  
Dallas, Texas 75236 USA  
Email: iso639-3@sil.org  
An email attachment of this completed form is preferred.

Further information:

If your request for a new language code element is supported by the Registration Authority as a formal proposal, you may be contacted separately by researchers working with the Ethnologue or with LinguistList asking you to provide additional information.
