ISO 639-3 Registration Authority Request for New Language Code Element in ISO 639-3

This form is to be used in conjunction with a "Request for Change to ISO 639-3 Language Code" form

Date: 2011-7-18

Name of Primary Requester: Anthony Aristar, head of the MultiTree Project

E-mail address: multitree at linguistlist dot org

Names, affiliations and email addresses of additional supporters of this request:

Claire Bowern (claire.bowern@yale.edu)

Associated Change request number : 2011-105 (completed by Registration Authority)
Tentative assignment of new identifier : tgz (completed by Registration Authority)

PLEASE NOTE: This completed form will become part of the <u>public record</u> of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION

- a) Preferred name of language for code element denotation: Tagalaka
- b) Autonym (self-name) for this language:
- c) Common alternate names and spellings of language, and any established abbreviations: Dagalang (valid variant), Da:galag, Takalak, Targa-lag, Tarkalag.
- Reason for preferred name:
 Both AustLang and Dr. Bowern list the language name as such.
- e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
 AUSTLANG indicates that as of the 2004 National Indigenous Languages Survey, there was 1 speaker of this language. In 2005, it was again estimated that 1 speaker remained.
- f) Preferred three letter identifier, if available: tgx

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION

a)	Is this a		Living language
		\boxtimes	Nearly extinct/secondary use only (includes languages in revival)
			Recently extinct language
			Historical language
			Ancient language
			Artificially constructed language
			Macrolanguage

(Se	Select one. See explanations of these types at http://www.sil.org/iso639%2D3/types.asp)				
I	For individual languages, also complete:
