SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”

a) First-hand knowledge. Describe:
Visit in 1968 with colleague. Took word list and gathered some demographic data. We found at that time few who would admit to being Subanen. We heard that on the Western slopes of Mt Malindang was where the majority of the population would be found.

b) Knowledge through personal communication. Describe:
A group of the members of the Translators Assoc of the Phil (TAP) made a trip to the western slopes of Mt Malindang in 2002. One of their members was a fluent speaker of both Central and Northern Subanen. He found that he could not rely on his use of Subanen and had to revert to using the lingua franca of the area, Bisayan. They report the language is Subanen but different from Central and Northern.

c) Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):
