ISO 639-3 Registration Authority

Request for New Language Code Element in ISO 639-3

This form is to be used in conjunction with a “Request for Change to ISO 639-3 Language Code” form

Date: 2012-1-23

Name of Primary Requester: Anthony Aristar, ELCat and MultiTree Principal Investigator

E-mail address: mt at linguistlist dot org

Names, affiliations and email addresses of additional supporters of this request:
Claire Bowern (claire.bowern at yale dot edu)

Associated Change request number : 2012-056
Tentative assignment of new identifier : ygu

PLEASE NOTE: This completed form will become part of the public record of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION
   
   a) Preferred name of language for code element denotation:
      Yugul

   b) Autonym (self-name) for this language:
      Yugul

   c) Common alternate names and spellings of language, and any established abbreviations:
      Yukul, Jokul, Yikil, Yookil, Yookull, Yookala, Yikul.

   d) Reason for preferred name:
      Both AustLang and Dr. Bowern list the language name as such.

   e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):

   f) Preferred three letter identifier, if available: 1jz

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION

   a) Is this a
      □ Living language
      □□ Nearly extinct/secondary use only (includes languages in revival)
      □□ Recently extinct language
      □□ Historical language
      □□ Ancient language
      □□ Artificially constructed language
      □□ Macrolanguage

Request for New Language Code Element in ISO 639-3, page 1
(Select one. See explanations of these types at [http://www.sil.org/iso639-2D3/types.asp](http://www.sil.org/iso639-2D3/types.asp))

For individual languages, also complete:

b) Countries where used:
   Australia

c) Region within each country: towns, districts, states or provinces where used. Include GPS coordinates of the approximate center of the language, if possible:
   Northern Territory: Ngukurr, St Vidgeon homestead, Nawaparr Gorge, Namiliwirri Lagoon

   Centroid Coordinates per Bowern 2011: (Latitude: -14.6741889383591, Longitude: 134.183832132001)

d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION

a) This language is: □ Signed    ☑ Spoken    □ Attested only in writings

b) Language family, if classified; origin, if artificially constructed:
   Arnhem, Marrán
   Further note on language family: "In reviewing this request, the language family is listed as "Arnhem, Marrán". Is this a new subfamily of Australian, or a subgroup of one of the Australian subfamilies? I will need to know for the registration, as the Ethnologue will want to have it in the right place in the Australian family."

c) This is complicated because it depends on what you believe Gunwinyguan looks like. But I see that Evans (2003) has it as separate from Gunwinyguan, and that's what I would go with. So, it's a new family, containing Yugul, Warndarrang, Marra and Alawa. But there are such contradictory grouping for these languages, for now it's probably best just to group it with whatever Marra is listed as.

d) Closest language linguistically. For a Macrolanguage, list the individual languages (adopted and/or proposed) to be included in its group. For signed language, note influence from other signed or spoken languages:
   Marra

4. LANGUAGE DEVELOPMENT AND USE

a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.?:
   No
b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:
Unknown

c) Comment on factors of ethnolinguistic identity and informal domains of use:
Unknown
SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”

a) First-hand knowledge. Describe:

b) Knowledge through personal communication. Describe:

c) Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):

Please return this form to:

ISO 639-3 Registrar
SIL International, Office of Language Information Systems
7500 West Camp Wisdom Road
Dallas, Texas 75236 USA
Email:  iso639-3@sil.org
An email attachment of this completed form is preferred.

Further information:

If your request for a new language code element is supported by the Registration Authority as a formal proposal, you may be contacted separately by researchers working with the Ethnologue or with LinguistList asking you to provide additional information.
