Registration Authority decision on Change Request no. 2012-096: to change the name of the code element [ppr] Piru.

The request to change the name of the code [ppr] Piru to Luhu has been changed. The Registration Authority notes that the code for Luhu [lcq] was retired last year based on change request 2011-084 when the Piru [ppr] and Luhu [lcq] groups were merged into a single code. The original request was written so as to merge the code for large group [lcq] Luhu into the very small one [ppr] Piru. On seeing the result, the requester noted that it really should have been done the other way around, and thus submitted this follow-up name change. In considering this request, the Review Committee noted the earlier error, and suggested that it was better to correct the original mistake. Therefore, the request to change the name of [ppr] Piru to Luhu has been changed to replace the code [ppr] with the code [lcq] Luhu, by retiring [ppr] and taking [lcq] out of retirement.
