1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Inuit Sign Language ...(other)
   b) Autonym (self-name) for this language:
      Inuit Uukturausingit
   c) Common alternate names and spellings of language, and any established abbreviations:
      ISL, IUR
   d) Reason for preferred name:

   e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
      Inuit of Nunavut, Canada. Less than 50 deaf primary language users. Hearing people also know the language, number unknown
   f) Preferred three letter identifier, if available: iks

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION
   a) Is this a □ Living language
      ◐ Nearly extinct/secondary use only (includes languages in revival)
Recently extinct language
Historical language
