   b) Autonym (self-name) for this language:
      Tidung

   c) Common alternate names and spellings of language, and any established abbreviations:

   d) Reason for preferred name:

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

      □ Living language
      □ Nearly extinct/secondary use only (includes languages in revival)
