PLEASE NOTE: This completed form will become part of the public record of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION

a) Preferred name of language for code element denotation:
   Taznatit

b) Autonym (self-name) for this language:
   Taznatit or Tachelhit. Tachelhit is used in the western Gourara, while the home variety is called Taznatit (Zenati) in the eastern Gourara

c) Common alternate names and spellings of language, and any established abbreviations:
   Zenatiyya

d) Reason for preferred name:
   No change proposed. Reclassification of a dialect of this language requires it be re-registered.

e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
   11,000 Souag 2014. (Alternatively, Bisson in Encyclopedie Berbere pp 3188-3198 cites a census of 1952 which give 15402 Berber speakers in the Gourara.
   http://encyclopedieberbere.revues.org/1770. True figures today could be higher. The Laval University of Quebec gives a figure of 57950, but this should be treated with caution.

f) Preferred three letter identifier, if available:
   Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.
2. TEMPORAL DESCRIPTION and LOCATION
   a) Is this a ☒ Living language
       □ Nearly extinct/secondary use only (includes languages in revival)
       □ Recently extinct language
       □ Historical language
       □ Ancient language
       □ Artificially constructed language
       □ Macrolanguage

   (Select one. See explanations of these types at http://www.sil.org/iso639-3/types.asp)

   For individual languages, also complete:
   b) Countries where used:
       Algeria

   c) Region within each country: towns, districts, states or provinces where used. Include GPS
       coordinates of the approximate center of the language, if possible:
       Gourara region of Adrar province, including Timimoun (especially old quarter around El
       Mandjou), At Said, Deldoul, Talmine, Charouine and surrounding villages
       29 degrees 15 N, 0 degrees 15 west

   d) For an ancient or historical language, give approximate time frame; for a recently extinct language,
       give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION
   a) This language is: □ Signed ☒ Spoken □ Attested only in writings

   b) Language family, if classified; origin, if artificially constructed:
       Berber, Zenati

   c) Closest language linguistically. For a Macrolanguage, list the individual languages (adopted and/or
       proposed) to be included in its group. For signed language, note influence from other signed or
       spoken languages:
       Figuig: south oranie

4. LANGUAGE DEVELOPMENT AND USE
   a) What written literature, inscriptions or recordings exist in this language? Are there newspapers,
       radio or television broadcasts, etc.?:

b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:

Berber is recognised

c) Comment on factors of ethnolinguistic identity and informal domains of use:

Some oasis villages are majority Arabic speaking, others majority Berber. Used by adults and some children
