PLEASE NOTE: This completed form will become part of the public record of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Mirning
   b) Autonym (self-name) for this language:
   c) Common alternate names and spellings of language, and any established abbreviations:
      Mirniny (proposed alt, used by some linguists per audio-tape transcription)
   d) Reason for preferred name:
      Most common (AIATSIS, ABS, Horton, Tindale), spelling of native title claim.
      AIATSIS A9 ‘comments’ notes that “the Mirniny spelling is often used to refer to a group of languages including Mirning, Kalaako A2 [kba] and Ngatjumaya A3 [nju].”
   e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
      4 speakers per 2004 NILS estimate
   f) Preferred three letter identifier, if available: ?? perhaps [myq]

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION
   a) Is this a
      ☒ Living language
      ☐ Nearly extinct/secondary use only (includes languages in revival)
      ☐ Recently extinct language
      ☐ Historical language
      ☐ Ancient language
Artificially constructed language
Macrolanguage

(Select one. See explanations of these types at http://www.sil.org/iso639-3/types.asp)

For individual languages, also complete:

b) Countries where used:
   Australia

c) Region within each country: towns, districts, states or provinces where used. Include GPS
coordinates of the approximate center of the language, if possible:
   From east of Port Culver to White Well, So. Aust., at head of Great Australian Bight; inland
   normally only to edge of the treeless karst plateau of the Nullarbor Plain, but after big rains
   they ventured far inland to the inner edge of the open country (Tindale 1974, as cited in
   AIATSIS, followed by the comment ‘This covers a larger area (to the West) compared to
   von Brandenstein’s location quoted by Oates 1975’)

d) For an ancient or historical language, give approximate time frame; for a recently extinct language,
give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION
   a) This language is: □ Signed  ☑ Spoken  □ Attested only in writings
   b) Language family, if classified; origin, if artificially constructed:
      Pama-Nyungan, South-West
   c) Closest language linguistically. For a Macrolanguage, list the individual languages (adopted and/or
      proposed) to be included in its group. For signed language, note influence from other signed or
      spoken languages:
      Ngadjunmaya [nju]

4. LANGUAGE DEVELOPMENT AND USE
   a) What written literature, inscriptions or recordings exist in this language? Are there newspapers,
      radio or television broadcasts, etc.?:
      per AIATSIS, tape transcription/field note available.

      language: extracted from notes by Geoff O’Grady & Alix O’Grady 1959/1968. Adelaide:
      Discipline of Linguistics, School of Humanities, University of Adelaide.

b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?

c) Comment on factors of ethnolinguistic identity and informal domains of use:
