ISO 639-3 Registration Authority
Request for New Language Code Element in ISO 639-3

This form is to be used in conjunction with a “Request for Change to ISO 639-3 Language Code” form

Date: 2020-7-25
Name of Primary Requester: Adedamola Aregbesola
E-mail address: adedamola_seun at sil dot org

Names, affiliations and email addresses of additional supporters of this request:
Luther Hon, Survey Department Supervisor, SIL Nigeria, luther_hon at sil dot org
Yakubu Danladi, Survey Specialist, SIL Nigeria, yakubu_danladi at sil dot org

Associated Change request number : 2020-032 (completed by Registration Authority)
Tentative assignment of new identifier : vkz (completed by Registration Authority)

PLEASE NOTE: This completed form will become part of the public record of this change request and the history of the ISO 639-3 code set. Use Shift-Enter to insert a new line in a form field (where allowed).

1. NAMES and IDENTIFICATION

a) Preferred name of language for code element denotation:
Koro Zuba

b) Autonym (self-name) for this language:
Koro Zuba

c) Common alternate names and spellings of language, and any established abbreviations:
Zuba Koro, Koro Ganagana

d) Reason for preferred name:
A group discussion was facilitated, which included prominent members of the language group and also those who can be referred to as custodians of the language, and they came to the conclusion that Koro Zuba adequately depicts this group and the language’s name. Consequently, changes should be made to reflect Koro Zuba as the language’s name.

e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
Koro Zuba: between 10,000 to 12,000

f) Preferred three letter identifier, if available:
Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION

a) Is this a ☒ Living language
☐ Nearly extinct/secondary use only (includes languages in revival)
☐ Recently extinct language
☐ Historical language
☐ Ancient language
☐ Artificially constructed language
☐ Macrolanguage

(Select one. See explanations of these types at http://www.sil.org/iso639-3/types.asp)

For individual languages, also complete:

b) Countries where used:
Nigeria

c) Region within each country: towns, districts, states or provinces where used. Include GPS coordinates of the approximate center of the language, if possible:
Gwagwalada LGA, FCT. Abuja: Tungan Maje, Dutsen Alhaji Anagada, Abuchi and Gapa.

d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user’s death

3. MODALITY AND LINGUISTIC AFFILIATION

a) This language is: ☐ Signed ☐ Spoken ☐ Attested only in writings

b) Language family, if classified; origin, if artificially constructed:

Dibo [dio]. In about 348 wordlist comparisons of both languages, there is a 30-36% lexical similarities between both languages, which is also enough to prove the linguistic differences, and consequently being two separate languages.

4. LANGUAGE DEVELOPMENT AND USE

a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.?:
N/A
b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:
N/A

c) Comment on factors of ethnolinguistic identity and informal domains of use:
The language is used in the home domain among family relations, between friends, on the farm, and generally with other speakers of their language.
SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”

a) First-hand knowledge. Describe:

b) Knowledge through personal communication. Describe:

Commented [1]: Please make the kind of statement that is made in Nteng doc here.

Commented [2]: Blench has a write up on this. Check

c) Knowledge from published sources. Include known dictionaries, grammars, etc. (please give complete bibliographical references):

Please return this form to:

ISO 639-3 Registrar
SIL International, Office of Language Information Systems
7500 West Camp Wisdom Road
Dallas, Texas 75236 USA
Email: iso639-3@sil.org
An email attachment of this completed form is preferred.

Further information:

If your request for a new language code element is supported by the Registration Authority as a formal proposal, you may be contacted separately by researchers working with the Ethnologue or with LinguistList asking you to provide additional information.
