1. NAMES and IDENTIFICATION
   a) Preferred name of language for code element denotation:
      Wangerooger Frisian
   b) Autonym (self-name) for this language:
      Wangerooger Freesk
   c) Common alternate names and spellings of language, and any established abbreviations:
      Wangerooger Frees, WGF
   d) Reason for preferred name:
      This is the English translation of the original Frisian name.
   e) Name and approximate population of ethnic group or community who use this language (complete individual language currently in use):
      Extinct, currently revitalized with support from the University of Amsterdam
   f) Preferred three letter identifier, if available: WGF

Your suggestion will be taken into account, but the Registration Authority will determine the identifier to be proposed. The identifiers is not intended to be an abbreviation for a name of the language, but to serve as a device to identify a given language uniquely. With thousands of languages, many sets of which have similar names, it is not possible to provide identifiers that resemble a language name in every case.

2. TEMPORAL DESCRIPTION and LOCATION
   a) Is this a
      [ ] Living language
      [ ] Nearly extinct/secondary use only (includes languages in revival)
      [X] Recently extinct language
      [ ] Historical language
      [ ] Ancient language
      [ ] Artificially constructed language
☐ Macrolanguage

(Select one. See explanations of these types at http://www.sil.org/iso639-2D3/types.asp)

For individual languages, also complete:

b) Countries where used:
   Germany.

c) Region within each country: towns, districts, states or provinces where used. Include GPS coordinates of the approximate center of the language, if possible:
   Wangerooge, East Frisia, Lower Saxony.

d) For an ancient or historical language, give approximate time frame; for a recently extinct language, give the approximate date of the last known user’s death
   Extinct, last speaker died in 1953.

3. MODALITY AND LINGUISTIC AFFILIATION
   a) This language is: ☐ Signed ☐ Spoken ☒ Attested only in writings

   b) Language family, if classified; origin, if artificially constructed:
      Indo-European, Germanic, West Germanic, Northwest Germanic, Frisian, East-Frisian, Weser Frisian, Wangerooger Frisian

   c) Closest language linguistically. For a Macrolanguage, list the individual languages (adopted and/or proposed) to be included in its group. For signed language, note influence from other signed or spoken languages:
      Saterlandic Frisian

4. LANGUAGE DEVELOPMENT AND USE
   a) What written literature, inscriptions or recordings exist in this language? Are there newspapers, radio or television broadcasts, etc.:?
      There are no mass media in this language. The scientists who studied the language (roughly between 1800 and 1950) wrote down numerous texts and translated literature with the aim of language conservation. In addition, the scientists recorded hours of audio, which gives us the possibility to fully reconstruct and revitalize the language.

   b) Is this language officially recognized by any level of government? Is it used in any levels of formal education as a language of instruction (for other subjects)? Is it taught in schools?:
      Not yet, but currently under development.

   c) Comment on factors of ethnolinguistic identity and informal domains of use:
      The language is only in use with academics.
SOURCES OF INFORMATION

You do not need to repeat sources previously identified in the form, “Request for Change to ISO 639-3 Language Code”

a) First-hand knowledge. Describe:
I am one of the two new speakers.

b) Knowledge through personal communication. Describe:
