Comments received for
ISO 639-3 Change Request 2022-003

Outcome: Rejected

Effective date: October 31, 2023
Registration Authority decision on Change Request no. 2022-003 to create the code element [sdy] for Sabariya

The request to create the code element [sdy] for Sabariya is rejected. The RA notes that only two sources of supporting information are cited—an unpublished report and a broken link on a journalistic website—and these were not provided by the submitter during the additional time the request remained pending. Because of the lack of verifiable evidence, the request for a code does not meet the criteria of the standard, and is therefore rejected.
